

STREETSMART

On-Demand Business Software

Millions of people everywhere are reducing costs and saving time by using on-demand software. You too can take advantage of this revolution with StreetSmart. Control your entire operation wherever you have access to the Internet.

StreetSmart is an on-demand suite of business productivity software. It provides you with Email, Calendar, Workflow, CRM and much, much more all in an easy to use format

STREETSMART, The Browser Is Your Office !

StreetSmart translates to cost savings since there's no need to invest your capital and resources in buying, installing and maintaining expensive server hardware and software.

Pick and choose the applications you need to streamline, standardize and improve communications and processes throughout your entire organization.

Instantly and securely make critical data available to desired people at any time regardless of physical location.

With StreetSmart the expenses and complexities of implementation are reduced to virtually zero.

The StreetSmart service easily scales so acquisitions or new hires don't create an IT burden as your organization grows. With StreetSmart there's no need to purchase new hardware or software.

For just pennies per-day it's easy to see how StreetSmart saves businesses thousands of dollars a year in licensing fees, hardware, system support, and end-user management.

“We were planning to upgrade our Exchange Server, but with licensing costs and the manpower required StreetSmart was by far the more intelligent choice. We've significantly decreased our IT costs without sacrificing quality of service.”

Tom Glatt
President & CEO
Continental Federal Credit Union

“We are pleased to be working with a company of the caliber of InfoStreet, In our work, it is imperative that our network stays intact and that our people and offices stay connected. We rely heavily on partners such as InfoStreet to keep our internal technology working efficiently, enabling us to focus on saving lives.”

Dr. Farshad Rastegar
CEO
Relief International

Use STREETSMART to:
