

OPERATION GOLDEN SEAL

The following information on individuals from Arizona was obtained by ABC15 from the Attorney General's Office in Washington state. Please note that this database of individuals are by no means confirmed buyers of fake degrees or diplomas. The database was compiled from the documents and electronic records seized by the Operation Gold Seal task force from the defendants in the St. Regis University criminal prosecution. Thus, the listed individuals may have initiated the purchase of a fake degree or diploma and thus have their names entered into a database maintained by the defendants, but their purchase may not have been completed for whatever reason. Additional investigation is required before one may confirm that an individual on the list is actually a buyer and if it's confirmed that an individual is a buyer, even more investigation is required to determine if the individual actually used the fake degree or diploma illegally.
